DETAILED ACTION

Claims 1, 2, 7, 17, 45-47, 54 and 55 are pending in the application.

This action is in response to applicants' amendment filed August 5, 2004. Claim 54 has been amended.

Change of Examiner

Note the change of Examiner in the present application. The Art Unit number (1624) remains the same.

Response to Amendment

In view of the amendments and arguments in the response of August 5, 2004, all the rejections of record have been overcome. However, upon further search and review, the **finality of the previous office action is withdrawn** and the new grounds of rejection below are seen necessary.

Priority

1. The applicants have indicated in the first line of the specification that this application is as follows:

This application is a divisional application of application serial no. 09/419,761 tiled October 19, 1999, **now allowed**, which claims priority under **35 U.S.C. 119 of Danish application PA 1998 01352 tiled October 21, 1998**, and of U.S. Provisional application 60/105,912 tiled October 28, 1998, the contents of which are fully incorporated herein by reference.

The first line of the specification must indicate any applications which were filed under 35 U.S.C. §§ 119(e) or 120. However, any foreign priority document, i.e. PA 1998 01352 should not be cited in this paragraph.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

1. Claims 1, 2, 7, 17, 45-47, 54 and 55 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The following reasons apply:

- a) Claims 1, 2 (and claims dependent thereon) are vague and indefinite in that it is not known what is meant by the definition of R^1 , R^2 , R^3 , and R^4 where "optionally substituted with one or more halogen, perhalomethyl, hydroxyl, nitro or cyano" appears after the semicolon following the definition of the substituents on the amino within the definition of R^{11} and R^{12} . Clarification is required as to which moiety is substituted.
- b) Claims 1, 7 (and claims dependent thereon) are vague and indefinite in that it is not known what is meant by the definition of ring A which is optionally substituted with hydrogen.
- c) Claim 1 (and claims dependent thereon) are vague and indefinite in that it is not known what is meant by the definition of R^5 and R^6 where "optionally substituted with one or more halogen, perhalomethyl, hydroxyl, nitro or cyano"

Art Unit: 1624

appears after the semicolon following aralkyl. Clarification is required as to which moiety is substituted.

d) Claim 1 (and claims dependent thereon) are vague and indefinite in that it is not known what is meant by the definition of R^7 and R^8 where "optionally substituted with one or more halogen, perhalomethyl, hydroxyl, nitro or cyano" appears after the semicolon following heteroaralkyl group. Clarification is required as to which moiety is substituted.

e) Claim 7 recites the limitation "cyano, C_{4-7} -alkenynyl, aryloxy, aralkyl, aralkoxy, heterocyclyl, heteroaryl, heteroaralkyl, heteroaryloxy, heteroaralkoxy, acyl, acyloxy, hydroxy C_{1-7} -alkyl, amino, acylamino, C_{1-7} -alkylamino, arylamino, aralkylamino, amino C_{1-7} -alkyl, C_{1-7} -alkoxy C_{1-7} -alkyl, aryloxy C_{1-7} -alkyl, aralkoxy C_{1-7} -alkyl, C_{1-7} -alkylthio, thio C_{1-7} -alkyl, C_{1-7} -alkoxycarbonylamino, aryloxycarbonylamino, aralkoxycarbonylamino, $-COR^{11}$, or $-SO_2R^{12}$, wherein R^{11} and R^{12} independently of each other are selected from hydroxy, perhalomethyl or amino optionally substituted with one or more C_{1-6} -alkyl, perhalomethyl or aryl; optionally substituted with one or more halogen, perhalomethyl, hydroxy or cyano" in the definition of the substituents on ring A. There is insufficient antecedent basis for this limitation in the claim.

f) Claim 45 is vague and indefinite in that it is not known what is meant by 10^6 in the 1st, 2nd, 3rd, 4th, 5th, 6th, 7th, 8th, 9th, 10th and 11th species.

g) Claim 45 is vague and indefinite in that it is not known what is meant by 5^4 in the 12th, 13th, 14th, 15th, 16th, 17th, 18th, 19th, 20th, 21st, 22nd, 23rd and 24th species.

Art Unit: 1624

- h) Claim 46 is vague and indefinite in that it is not known what is meant by 10⁶ in the 1st species.
- i) Claim 45 is vague and indefinite in that it is not known what is meant by 5⁴ in the 2nd species.
